Program Starts September 2018

You Will Receive a Welcome Letter in August.

Get your child off to a great start with other same age children. Preschool involves your child in skill-building activities with other children, laying the foundation for educational success. Your child explores his/her unique interests at his/her own pace with the encouragement of experienced, caring staff. Choose from two or three half-day programs with an open enrollment policy. Enroll now and watch your preschooler discover the world, practically in your own backyard!

Program Goals

- 1) Teach basic readiness skills in language arts and arithmetic.
- 2) To view children as competent and powerful learners, these programs build on each child's unique abilities and skills.
- 3) To provide a rich multi-sensory environment to promote, challenge and create learning opportunities.
- 4) To provide socialization and collaboration as an opportunity to develop skills to encourage cooperation and lifelong learners.
- 5) To promote families that are viewed as a true first teacher of children, these programs build on the culture, values and uniqueness within the classroom environment
